**FIVESTARGRASS EN1177**

# PE Shockpad

## Benefits of FivestarGrass Shockpads

Benefits of Fivestar Shockpads:

- Extremely durable. Unaffected by weather conditions or decay.
- Closed cell structure prevents absorption of water.
- Fallheight unaffected by weather conditions.
- 60 liter per minute discharge of water.
- Fixed form supported by fiberglass fleece.
- Can be joined with hooktape for quick installation which results in lower installation time and costs.
- Warranty 15 years.
- Smoothing effect on subbase which has a positive effect on the lifetime of the grass.
- High shock-absorption.
- Environmental friendly
  - less infill material.
  - non toxic.
  - 100% polyethylen (recycleable).
  - less landscape smoothing and reduced transport costs, less CO<sup>2</sup> emission.
- Supports the flexibility of the yarn (stamina). The grass has a more natural look and feel and is more comfortable.
